into her limits; no fighting occurred, though considerable disturbance was occasioned by a race between two of the companies. Their combativeness is not so strong as it once was.

Markers.—The market is still depressed, and but few important changes in rates have transpired. A slight decline in flour was yesterday submitted to by a few holders; 1000 bbls. of good brands, than fresh ground, was sold at \$3.87½, which is an ½ lower to pravious rates. In cot ton a slight advance has been realized, and holders are decidedly firm; there is more firmness in domestic cotton goods, and more activity in the market. Sales of Quereliton Barks, No. 1; at \$25 for horse power, and \$24 for water power. The receipt of Anthracite Coul have fallen off very much, but without any change in prices. About 1000 bushels prime red wheat sold at \$3 cts.; about 200 barrels Rye flour at \$2,69, and some Corn meal at \$2.87½ a \$2,44; Southern corn, yellow, is worth \$2 cts; whiskey sold at 21½, and 250 hhds. New Orleans sugar, on time, at 6½ a 7 cts.

tocks were in but very limited demand, and prices early yielded. About \$5000 Feunsylvania Five's, l at 66½ 5 ds.; U. States Sixes. 102½ offered, and 104 ed; Reacting Railroad closed at 32½ a 33; Wilming-Railroad, 25 a 35; Fennsylvania Five's, 66% a 66½; rris Canal, 6½ offered.

## COMMERCIAL

New York, Aug. 20.

Asses.—Sales continue to be made in pots at \$3 56½ a \$3 56½, and in pearls at \$4 12 a \$4 23.

Breadstures.—The market generally remains firm, and prices have slightly advanced. Sales were made in Genesee and Michigan at \$4 6½. Southern is without sale, from \$4 18½ a \$4 25; rye has been sold at 70 cents. Nothing doing in wheat. Corn, 56 a 67; mixed, 53 a 54. Corros.—There was less demand to-day, and the sales consequently were not at such full rates, about, 1500 bales were taken chiefly on speculation.

The Crops.

We have no doubt, from the representations of several farmers of this county, that the potato rot has made its appearance. In some instances it already threatens the destruction of the crops. The mercer potato seems to be the most liable to attack, and so highly is that variety approved, that it is very generally cultivated.

Every paper that we receive from the South, contains statements or extracts relative to the destruction by the army worm; and from every part of the country we receive accounts predicting a very scant sea on.

The Vicksburg Intelligencer, of the 18th instant, says: Since Friday last it has rained incessantly, and every thing and every body looks gloomily upon the prospects of the South. It has opened much like that ever to be remembered season, 1843, and should it keep on as it then did, the loss must and will amount to at least three fourths of the crop on the low lands, while the uplands are greatly injured by the catarpillar, army worm and boll worm. Unless we have an immediate change, that is if this weather should continue for one week longer only, the river crop will fall short in all human probability 200,000 bales.

ROBERT S. STENTON, 74 MAIDEN LANE. (Up. Stairs) SOLE AGENT FOR THE UNITED STATES.

In no country in the world does the manufacturer so surely reap the benefit arising from deserged superiority as in the limited States; and, for this reason, an American looks for the manufacturer's name impressed upon any article before the purchase; and if he finds the quality good, he remembers and recomme add what he has tried and proved. Still, there is no rule with ant exception. All who purchase Needles by wholesale are well aware that they are not usually labelled with the real manufacturer's name, but with the name of the importer in New York, Philadelphia, &c., who thus deprives a deserving man of all the credit justly due to him; and as the importer can attach his mame to the goods of various makers, the buyer has no certainty of obtaining the same article in quality which he had previously purchased, and again requires.

BATOHELOR'S HAIR DYE.

A LIQUID COLORING FOR THE HAIR, WHISRESS, &c.—its claims to patronage will at once be understood by those who have used or sold the preparations of fered for dying the hair. Its application is simple, its effect certain; being emphatically a perfect hair dye, without destroying the elasticity or health of the hair. To fancy store-keepers, druggists, &c., it will be found a most desirable article, as they can with confidence, recommend it to their customers, and no be troubled with complaints of its dying the skin or lines. It will not rub off the hair, and constant washing only improves its appearance. The color is permanent and perfectly antiform, entirely free from those unnatural tinta, varying from the faded green to the royal purple, produced by the ordinary hair dyes. In proof of its efficacy the inventor is prepared to apply the dve to whiskers, or a portion of the hair, without change, to those wishing to purchase, if it proves satisfactory; for which purpose he has private rooms. Frepared only and sold wholesale and retail by WM. BATCHELOR. No. 2 Wall street, near Broadway. Fries 31, double size \$150. Cepy the address. Sole agent in Wallington City, J. H. The Doctor's reputation for skill in those old half-cured cases that have existed for years, is pre-eminent.—Gleet, stricture, ulcers upon the body, or in the throat or nose, pains in the head and bouse of the legs, effectually cured.

Constitutional weakers, however.

Gleet, stricture, alcers upon the body, or is the throat or nose, pains in the head and boues of the legs, effectually cured.

Constitutional weakness, brought on by a secret habit indulged in by young men, causing lascivious dreams and nightly emissions, positively prevented. Recent cases cured in four days, without mercary. No alteration in diet or prevention from usiness.

MEDICAL ADVICE—DOCTUR LAMERT is confidently emissions, on all diseases of a private nature. THIS admirable emolient is now by common consent rated A No. 1, as a remedy for blotches, pimples, pustales, acurf, tan freckles, sunburn, all kinds of eruptions, and every species of discoloration of the skin. All competition has been completely distanced by this invaluable composition, the demand for which, within the last its months, has increased more than five hundred pet cent. The clearness and freshness which its use imparts to the complexion, have rendered it proverbial as a beautifier of the Skin: and an dressing room can be considered furnished with a proper toilet that lacks Gournad's tailan Medicated Soap. If beauty be, as is asserted, only skin deep, it is the more important that the thin covering in which loveliness resides, should be kept in its preent and most attractive state.
